*To ensure that wildlife
and wild lands thrive in modern Africa*

African Wildlife Foundation

AWF's projects from the past 3 years

- ✓ AWF is the only international organization focused exclusively on Africa, promoting a uniquely African vision and voice for the continent's future
- ✓ Solutions are designed with African communities and policy leaders, engaging the African people throughout all levels of implementation
- ✓ AWF believes that wildlife and wild lands are an essential part of a modern and prosperous Africa

The African people are at the heart of our strategy for achieving our vision of change

The Big Questions

- Where will wildlife find space?
- And how do you win the case for wildlife in this picture?
- Might the solution be a new re-orientation toward saving the ecological system MOST – tying them to economic aspirations?

Advancing a clear
policy agenda for
wildlands and life as
part of Africa's
future...

AWF (wildlands and life) policy and positions have been included or influenced outcomes especially regarding key African social, economic and political development policies.

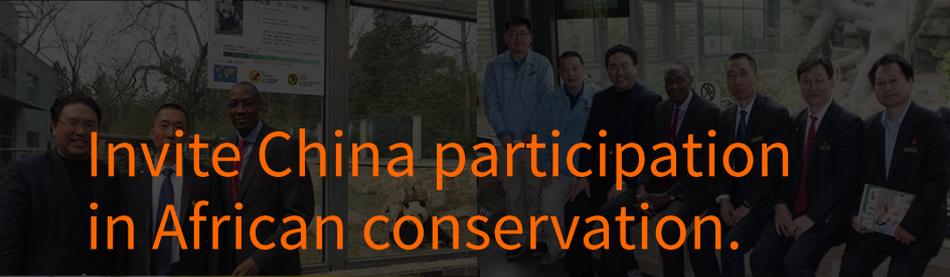

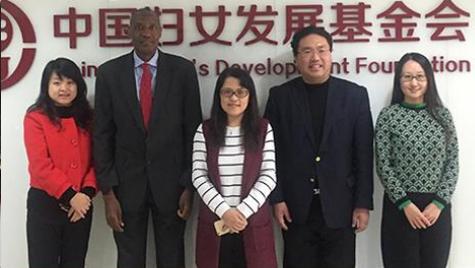

Thought leadership on conservation and brand presence within the African continent.

Mobilization of conservation funds in implementation of AWF's agenda - and increasing awareness among Africa's development partners

Full participation of China in our mission of ensuring wildlife and wild lands thrive in modern Africa.

Invite China participation in African conservation.

Build a vision and culture in AWF of staff involvement in policy and advocacy work. Creating more advocacy champions at AWF

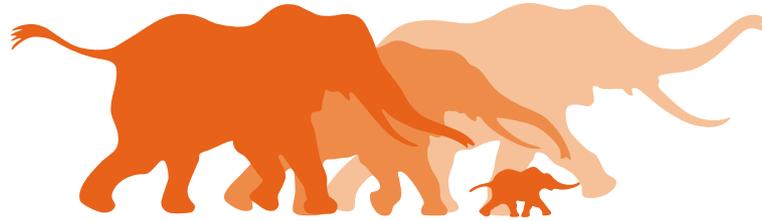

Looking Ahead...

- Continued US leadership as a contribution to Africa's economic growth and improved human well-being urgently needed.
- This to be driven by good stewardship on wildlife & wildlands.
- Strengthening the African voice
- Partnerships
- Presence
